From review by Hodgkins in Social Education:

"SOCIAL-STUDIES SKILLS might be introduced in almost any social-studies course. . . . The content of the exercises seems generally well chosen, and the breezy introductory paragraphs of each unit, enlivened by sketches . . . should be intriguing to pupils. . . . A wide use of SOCIAL-STUDIES SKILLS would advance the social-studies' contribution (to skills teaching) in addition to being immediately helpful to the pupils in whose hands the book is placed."
